

Working with Trans and Gender Non-Conforming Young People

Around 3% of young people report feeling uncomfortable with the gender they have been assigned at birth. In a school of 1000 pupils, that's 30 young people. 10 of those young people are likely to transition gender.

Did you know...

90% of all young people describe transphobic abuse as 'common'?

66% of trans young people seriously consider suicide, compared to just 23% of cis (non-trans) young people?
